

Goals

The District envisions a school district where teachers, staff, and administrators work in partnership with students, families, business and community leaders, and other district patrons to assure continual improvement toward creating a world class education system. To fulfill this vision the school district will strive to:

- Increase achievement in all subject areas.
- Use measurable data and research to drive educational improvement.
- Stimulate intellectual curiosity and growth.
- Help each student strive for excellence and instill a desire to reach the limit of his or her potential.
- Create exemplary schools distinguished by dedicated educators and students engaged in learning.
- Recognize and provide for the uniqueness of individuals.
- Develop responsible, productive and healthy citizens who are prepared to be life long learners.

The administrative personnel are responsible for apprising the Board of the educational program's current and future status. The Superintendent should prepare periodic reports that include:

- A review and evaluation of the present curriculum;
- A projection of curriculum and resource needs;
- An evaluation of, and plan to eliminate, any sexual, cultural, ethnic, or religious bias that may be present in the curriculum or instructional materials and methods;
- A plan for new or revised instructional program implementations; and
- A review of present and future facility needs.
