

Library Materials

The school library is recognized as an integral part of the school system. It plays a vital role in the total instructional program of the school. It provides access to the world of knowledge through a wide variety of materials and technology that support and enrich the curriculum and student interests.

Pursuant to State law, the Board has the duty and responsibility to equip and maintain a suitable library and to exclude therefrom all books, tracts, papers, and catechisms of a sectarian nature. School library and classroom library books are provided primarily for use by District students and staff. Library books may be checked out by either students or staff. Individuals who check out books are responsible for the care and timely return of those materials. The building principal may assess fines for damaged or unreturned books.

District residents or parents/guardians of non-resident students attending the District may be allowed use of library books at the discretion of the building principal. However, such access shall not interfere with regular school use of those books. Use of the library books outside of the District is prohibited except for inter-library loan agreements with other libraries.

Any individual may challenge the selection of materials for the library/media center. The Uniform Grievance Procedure shall be utilized to determine if the challenged material is properly located in the library.

Selection of Library Materials

The District has libraries in every school with the primary objective of implementing and supporting the educational program in the schools. It is the objective of these libraries to provide a wide range of materials on all appropriate levels of difficulty, with diversity of appeal and the presentation of different points of view.

The provision of a wide variety of library materials at all reading levels supports the District's basic principle that the school in a free society assists all students to develop their talents fully so that they become capable of contributing to the further good of that society.

In support of these objectives, the Board reaffirms the principles of intellectual freedom inherent in the First Amendment of the Constitution of the United States and expressed in the School Library Bill of Rights, endorsed by the American Association of School Librarians in 1969.

The Board, acting through the Superintendent, thereby delegates the authority for the selection of library materials to the principal in each of the schools. The principal further delegates that authority to the librarian in the school.
