

Certified Reimbursement for Credits

Subject to financial constraints determined during budget deliberations each spring, the District will provide the cost of obtaining up to five (5) graduate/university semester credits per year. For those employees enrolled in an educational program (i.e. additional endorsements or certifications), the District shall provide the cost of obtaining up to seven (7) graduate/university semester credits per year. Bachelor level credits shall be accepted if necessary to obtain educational endorsements or certifications.

The reimbursement per semester credit may not exceed the cost of a graduate level credit on July 1 (for the current school year) from the University of Idaho. Quarter credits will be treated as two-thirds (2/3) of a semester credit.

Denials may be appealed to the Superintendent or Designee.
