

Financial Management
GIFTS, GRANTS, BEQUESTS

It is the policy of the Board of Trustees that when philanthropic individuals or groups offer to make funds available to the school district these funds will be, when accepted, used to promote the educational activities of the district or advance a student's education in the form of a scholarship. Where necessary, the Board will review the terms and conditions of the grant or gift to ensure the district's interest or what liabilities may be attached.
